

Internationalized Living Environment

Comfortable Dorms

To ensure the investment in the STSP and take good care of the STSP staffs, high quality dorms were provided to meet the different needs including 861-unit Hua Yuan for the single employees, 164-unit Sin Yuan for employees with families, 25-unit Pu Yuan of Phase I and newly built 50-unit Pu Yuan of Phase II for the managerial level. Except for the newly built Pu Yuan of Phase II, Hua Yuan, Sin Yuan and Pu Yuan of Phase I have the leased rate of 93%, 81%, and 84% respectively.

Green Landscape

To build a beautiful landscape in the STSP, the STSP Administration planted flowers such as sun flowers and cosmos on the land which has not been leased out. During the blossoms, the beautiful flowers are very charming. In addition, to promote sustainable development and provide a platform for opinion exchange and experience sharing, four seminars on the building of green landscapes were held.

Comprehensive and Convenient Transportation Management

Service of Mass Transportation

To serve the commuting needs of the STSP staffs and students, the STSP Administration asked the coordination of the bus services extended to the Tainan Science Park and starting from October 1, 2005, four lines and 46 bus trips have been provided including Tainan-Shanhua-Madou, Tainan-Alethesia University, Tainan-Shanhua-Shanshang, and Tainan-Hailiao.

Charity Bike

Charity Bike in Use

To promote sports recreation and to reduce the growth of private transportation vehicles, the STSP Administration built bikeway and bike racks as well as provide 100 second-hand yellow recycled charity bikes at some major spots from October 8, 2005 for the public use.
