

New Tenant Enterprises for 2007

Optoelectronics Industry

Gloria Solar Corporation, Ltd.

US\$20 million in approved investments for the development of solar-power generation system modules.

Cosmotac Co., Ltd.

US\$6.7 million in approved investments for the development of diffusion and reflector films.

Exceed Material-Tech Corporation, Ltd.

US\$2 million in approved investments for the development of EL-grade photo-resist, developer, and solvent materials.

TAMA Fine Opto Inc., TSP Branch

US\$18.4 million in approved investments for the development of backlight modules.

Kenmos Photovoltaic Co., Ltd.

US\$66.7 million in approved investments for the development of thin-film solar cells/modules and related technical services.

Epilux Corp.

US\$53.3 million in approved investments for the development of LED epi-wafers and LED chips.

Auria Solar Co., Ltd.

US\$46.7 million in approved investments for the development of a-Si/ μ -Si thin-film solar cell/modules.

AxunTek Solar Energy Co., Ltd.

US\$13.9 million in approved investments for the development of thin-film solar cells/modules.

Shin Nan Technology Inc.

US\$2.3 million in approved investments for the development of indium tin oxide and ITO films.

Taiwan Polysilicon Corporation TNSIP Branch

US\$211 million in approved investments for the development of polysilicons.

Biotechnology Industry

Mildex Optical Inc.

US\$11.7 million in approved investments for the development of ophthalmic lenses.

Eped Inc.

US\$1.2 million in approved investments for the development of professional dental evaluation system and accessories.

Blue-Ocean Co., KSP Branch

US\$1.2 million in approved investments for the development of Hydroxyapatite (HA) powder, HA agglomerate powders, and related products.

Hung Chun Tech Co., Ltd.

US\$3.3 million in approved investments for the development of dental implants and related equipment.

Precision Machinery Industry

Busch Taiwan Co., STSP Branch

US\$0.7 million in approved investments for the development of vacuum system and related components.

Cherng Yuh Machinery Co., Ltd., STSP Branch

US\$0.8 million in approved investments for the development of industrial robots and peripheral devices.

Kingyoun Technologies Co., Ltd.

US\$8.3 million in approved investments for the development of in-line sputtering equipment.

Diamontex Corporation Ltd.

US\$3.3 million in approved investments for the development of CVD diamond-thick wafers, diamond heat sink molds, and diamond-coated medical equipment.

Telecommunications Industry

Tatung InfoComm Co., Ltd., STSP Branch

US\$1.7 million in approved investments for the development of WiMAX broadband wireless access application services.

Other Industries

Zen Material Technologies Inc.

US\$1 million in approved investments for the development of nano-composite and nano-hybrid materials, and related technical consultancy services.

Taikyu Co., Ltd., KSP Branch

US\$6.3 million in approved investments for the development of chromium-free coating system, deposition process for plasma electrolytic oxidation surface treatment, and related products.
