A Leap in Traffic~

The Transportation Network on the Northwest of the Phase II Site of TSP Completed and in Service

The construction in the first and second zones of the Phase II Site of TSP allows transportation to/from and within the northwest quadrant of the TSP. Planned construction was completed on September 22, 2008 for service, synergizing the Park's road infrastructure.

An Effective and Healthy Environment~

E-construction, Environmental Protection and Occupational Safety with Recognition

The Park's top notch one-stop service attracts Park enterprises as the STSP Administration receives awards and recognition for its progress and completed projects.

◆ Next generation of "customs e-service" has been granted the ISO certificate

The STSP Administration applied for certification of the customs e-service system and facilities safety management in April 2008 to ensure the security of the customs system. Customs e-service was introduced to the Park on December 12, 2007 and was ISO 27001 certified on October 2, 2008.

◆ Broadband pipeline construction plan received award

The 2006 broadband pipeline construction plan was completed in July 2007. The Ministry of the Interior awarded the STSP Administration third place in the "2006 Broadband Pipeline Construction Plan—Metropolitan Category" on May 14, 2008.

◆ Additional certifications were granted to the Environmental Protection Center

The Analysis Laboratory of TSP's Environmental Protection Center was re-evaluated by the Environmental Protection Administration in April 2008 and its water quality permit was extended. The laboratory also passed seven heavy metal water quality tests and upgraded waste water treatment and sewage management efficiencies.

◆ The STSP Administration had received the Excellence Award from the "National Occupational Safety and Health Week Activity"

On November 28, 2008, the Council of Labor Affairs of the Executive Yuan rewarded the STSP Administration with the "National Occupational Safety and Health Week Activity" Excellence Award for its achievements in promoting occupational health and safety.

A Rest for Your Body and Soul~

Wellness Center in Service

The Wellness Center is the destination for leisure and fitness. Since May 1, 2008, the center's facilities, including a multi-purpose gym, swimming pool and spa, and fitness center have served the wellness and recreation needs of our Park staff.

Popular New High School~

National Nanke International Experimental High School Senior High Department Officially in Session in 2008

In 2008, National Nanke International Experimental High School (NNKIEH) Senior High Department recruited three classes. Its first graduating class consisted of 90 students who scored a minimum of 260 on the Basic Competence Test for Junior High School Students. NNKIEH has attracted exceptional students throughout Tainan City/County through its international teaching approach, visionary academic foresight, and access to industrial and academic resources of the STSP. All these resources attracted outstanding applicants and made NNKIEH the top choice for many despite its novelty.
