Into the Time Tunnel of Xilaya, the Sensation of Culture and Art

In order to incorporate "The Tour of Science for the 50th Year of the National Science Council—Into the Time Tunnel of Xilaya" serial activities, on March 20, 2009, the Tainan Science Park was opened to the public for a sensational treat of technology, culture, and art at the Park.

Half-day Tour of Happiness at the STSP—Participation of Local Residents

On May 21, 25, and 27, 2009, three groups of "Neighborhood Half-day Tour at the STSP" were organized to invite local residents to witness the achievements of the STSP. In addition to the active participation of local residents, opinion leaders and members of community development associations were also invited.

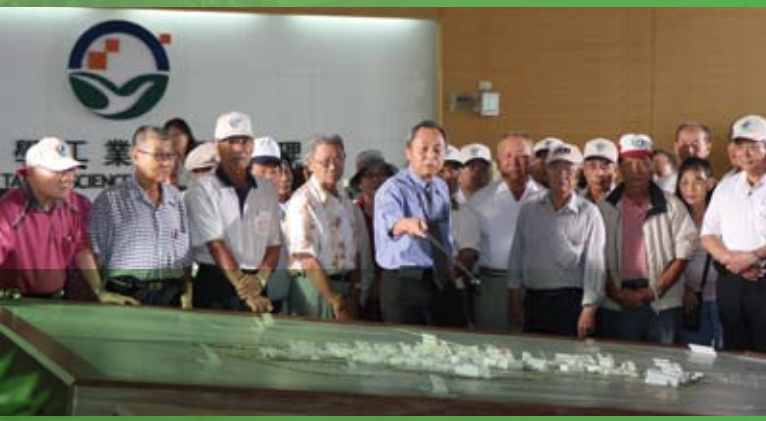

Activities at the STSP

The Sixth Anniversary Celebration of the STSP Administration and Neighborhood Cup Activities

With the theme, "Happy Sailing," the Sixth Anniversary Celebration of the STSP Administration and Neighborhood Cup Activities was organized on January 10, 2009. Distinguished guests from local areas, Park enterprises, local residents, and the press were invited. Moreover, group weddings of STSP employees were held with the blessing of the President of the R.O.C., Ma Yingjeou. Lottery drawing and garden fair activities were also arranged. Both kids and adults were excited at the fun activities and through the participation in the Sixth Anniversary Celebration of the STSP Administration, every one was impressed.

Strike—the Tenth STSP Neighborhood Cup and Fun Contest

The Tenth STSP Neighborhood Cup underwent more than a five-month competition beginning on June 27. A total of 358 teams from Tainan Science Park and Kaohsiung Science Park competed with each other. The number of participants once again broke the record of the previous year, demonstrating the active promotion of public sports by the STSP Administration and the result of building the energetic image of the STSP.

Christmas Season Activities

To greet the arrival of Christmas and New Year, the STSP Administration held a "2009 Christmas Eve Party" at 6:30 pm on December 24, 2009 at Puxin park of Tainan Science Park. Besides, Christmas Candle-Lighting Banquet, the National Nanke International Experimental High School (NNKIEH) and local residents also prepared wonderful performance programs. On the venue, a pavilion for those who wanted to pray for good fortune was set up.

Biking Paradise—Family Biking Day

To promote the governmental policy on energy saving and carbon reduction, healthy leisure and recreational activities, and parent-child relationships, the STSP Administration on May 23, 2009 worked with the Wellness Center co-organized the "Biking Paradise—Family Biking Day" activity. Approximately 600 bike riders participated. Through this activity, the visibility of the environmental protection work done by the STSP Administration was improved and it included the further promotion of green building, natural environment, culture and ecological life, public art at the STSP, where is one of the best destinations for bike lovers.

Exploration at the STSP—Educational Promotion

The STSP Administration, for the first time in 2009, organized a series of activities on "Exploration at the STSP—Educational Promotion." In June, two groups of "Exploration Camp of Environmental Protection of School Kids" and in October, a "Parent-Children Ecological Exploration Camp" were held that involved interaction between parents and their children and hands-on experiences to demonstrate the features that made the STSP a Green Science Park with its focus on "clean production, comfortable lifestyle, and rich ecology."
