

Transportation Network

The north-south and east-west main roads, as well as inter-region roads, of the transportation network within Tainan Science Park have been completed. The eastern and northern access roads were finished in January 1999 and December 2000 respectively. On March 19, 2001 the southern access road bridge was constructed. The section of the southern communication road stretching from County Highway S135 to National Highway 8 was completed in October 2002. In November 2003 the entire southern access road was opened.

Enhanced Living Environment

To provide comprehensive services for park enterprises, Directorate General of Customs' Kaohsiung Customs Office, Taiwan Power Company, Chunghwa Telecom Co., Ltd. , Post Office, Taiwan Water Supply Corporation and Chinese Petroleum Co. were requested to establish operational outlets or branch offices in Tainan Science Park.

Tainan Science Park enjoys a designated clinic, which provides basic medical services for employees of park enterprises. In addition there are four staffed banks (Taiwan, First, Overseas Chinese and UCB) and 4 non-staffed banks.

To offer employees of park enterprises an environment where they can focus on their work, we took the initiative to help Tainan County Government set up Nanke Elementary School and Nanke Junior High School. The two began to accept students in 2001 and 2002 respectively.

Convenience stores in the single dormitory area opened in April 2002. On the same day the tennis courts were opened.
