

New Partners in 2004

Optoelectronics

■ Key Components

WUJY Lighting Co., Ltd.

invested US\$4.5 million in more-than-20" plane light source backlight.

OptoC Technology Co., Ltd.

invested US\$1.9 million in modulated light receiver.

Himax Display, Inc.

invested US\$19.2 million in liquid crystal on silicon (LCOS).

Allied Material Technology Corp. Kaohsiung Branch

invested US\$479.2 million in color filters.

Radiant Opto-Electronics Ltd. Co. STSP Branch

invested US\$16 million in light guide plate for TFT-LCD and backlight.

DigiMedia Technology CO., Ltd., Nan-Ke Branch

invested US\$6.4 million in large LCD TV and other circuit components.

Sintek Photonic Corp. Tainan Branch

invested US\$335.5 million in large size color filters.

Tainan Branch, 3M Taiwan Ltd.

invested US\$19.2 million in enhanced specular reflector (ESR), prismatic brightness enhancement films, dual brightness enhancement Film (DBEF), and diffused reflective polarizer film (DRPF).

NEC Lighting (Taiwan) Co., Ltd.

invested US\$6.4 million in cold cathode fluorescent lamp (CCFL).

Sean & Stephen Corp. Kaohsiung Science Park Branch

invested US\$3.2 million in semiconductor laser module products.

■ Key Technology

Chi Mei Electroluminescence Corp.

invested US\$47.9 million in organic light-emitting diode (OLED).

Chem Diamond Technology Co., Ltd.

invested US\$5.2 million in a screen safe guard sheets.

■ Key Materials

Epichem Asia Co., Ltd.

Invested US\$511 thousand in metal organics - chemical vapor deposition precursors and bubblers with level sensor system.

IC

MJC Probe Inc. STSP Branch

invested US\$8 million in probe card and probe station.

Biotechnology

Savior Lifetec Corp. Tainan Branch

invested US\$1.6 million in Carbapenem antibiotics (Meropenem, Imipenem and Cilastatin), agents of above-mentioned antibiotics, and biopharmaceutical techniques and services.

Global Mycology Biotechnology Inc.

invested US\$3.2 million in products of breeding & cultivation of fungi

Advanced Green Biotechnology Inc.

invested US\$1.3 million in microbial products.

Precision Machinery

■ Electrooptical Equipment

Applied Films Taiwan Co., Ltd.

Invested US\$5.3 million in TFT-LCD vacuum coating equipments.

Crystal Bright Innovation Technology Inc.

invested US\$12.8 million in ceramic heating plates and EMI filter of PDP.

■ Others

Tong-Tai Machine & Tool Co., Ltd. Lujhu Sia Branch

invested US\$27.2 million in manufacturing printing board drilling and forming machines, linear motor machine center, high speed machine centers, and CNC precision turning.

Kingwin Precision Co., Ltd.

invested US\$1.9 million in nano-grade grinding precision mold below Ra5.0.

Finstrong Energy Corp.

invested US\$1.9 million in developing pneumatic turbine power equipment and parts.

Nano-Win Technology Co., Ltd.

invested US\$1.7 million in low temperature vacuum coating product and equipments

Hypersonic Inc. STSP Branch

invested US\$1.8 million in IC tester handlers and its key parts.

Computer and Peripherals

ThinFlex Corp. STSP Branch

invested in US\$3.4 million in exible copper clad laminates and its key parts.

Others

Epoch Material Co., Ltd.

invested US\$9.6 million in chemical mechanical polishing (CMP) slurry and CMP process cleaner.

Spirit Advance Co., Ltd.

invested US\$1.8 million in conductive adhesive products.

Alex Global Advanced Alloy Technology, Inc.

invested US\$4.8 million in friction stir welding applied products.

Thintech Materials Technology Co., Ltd. Lujhu Branch

invested US\$9.6 million in Targets, Biometal Alloy and its key parts

Balean Fuel Cell Co., Ltd. STSP Branch

invested US\$1.1 million in fuel cell and relating products and its key parts.
